

REMARKS/ARGUMENTS

The Examiner is requiring restriction to one of the following groups:

Group I: Claims 1-8, 17 and 19, drawn to a powder mixture.

Group II: Claims 9-12, 14 and 15, drawn to a process for the production of a powder mixture.

Group III: Claims 13 and 16, drawn to a process for the production of a powder mixture.

Applicants provisionally elect Group I, Claims 1-8, 17 and 19, drawn to a powder mixture, with traverse on the grounds that no adequate reasons and/or examples have been provided to support a conclusion of patentable distinctiveness between the identified groups. Also, it has not been shown that a burden exists in searching the claims of the three groups.

Moreover, the M.P.E.P. §803 states as follows:

If the search and examination of an entire application can be made without a serious burden, the Examiner must examine it on its merits, even though it includes claims to distinct or independent inventions.

Applicants respectfully submit that a search of all of the claims would not impose a serious burden on the Office.

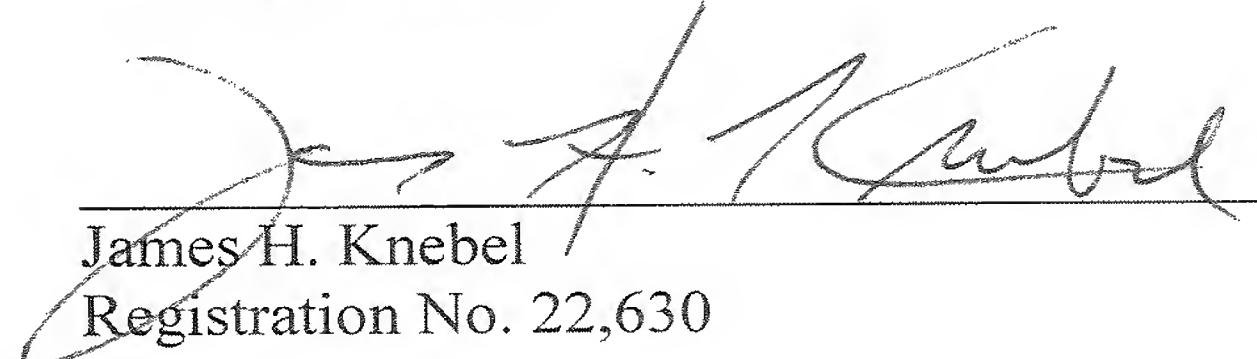

Accordingly, and for the reasons presented above, Applicants submit that the Office has failed to meet the burden necessary in order to sustain the Restriction Requirement. Withdrawal of the Restriction Requirement is respectfully requested.

Application No. 10/530,708
Reply to Office Action of October 19, 2007.

Applicants respectfully submit that the above-identified application is now in condition for examination on the merits, and early notice of such action is earnestly solicited.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
Norman F. Oblon
